

It's the Law

- **Animals** are not permitted to come ashore unless cleared by the Veterinary Officer.
- **Do not** bring ashore any fruits, plants or plant parts without the permission of the Department of Agriculture.
- **Do not** dump refuse in our waters or along our coastline.
- **Do not** take any coral, sponge, marine algae or starfish from the waters or beaches.
- **Do not** damage coral reefs by anchoring. Use the moorings provided by Nevis Air & Sea Ports Authority.
- **Do not** remove, damage, empty or cast adrift any fishing net, fish pot/trap, gear, tackle or other fishing equipment while in the waters of Nevis.
- **Do not** use spear guns for fishing in the waters of Nevis.
- **Do not** dive without a locally-licensed Dive Operator.
- **Special permission** is needed to pass through Fishing Priority areas or Marine Preserves when entering or leaving port.
- **Do not** anchor in any designated "safe swimming zone."
- **Do not** exceed a speed of 2 knots when operating tenders or other water crafts in the swimming zone right-of-way to the beach. All operators are requested to keep a sharp look out at all times when making way through this passage.

While enjoying the beautiful, unpolluted waters of Nevis, we are sure you will realize that our environment is a priority to us. It is our goal to preserve the sandy beaches, coral reefs, clear blue waters, and all marine plants and animals which play an important role in sustaining the quality of a natural environment and habitat.

Thank you for:

- *Leaving your anchor light on at night while moored.*
- *Reporting any floating objects or restrictions posing a threat to navigation.*
- *Reporting any offenders you may have observed collecting coral, spear fishing, or engaged in any operation you may consider harmful to the environment.*
- *Disposing of garbage, sewage and other pollutants properly.*
- *Reporting any water skiing, jet skis, or other recreational activities posing a threat to swimmers.*
- *Avoiding running over fish-pot markers.*
- *Enjoying our beautiful beaches and coastal waters. With your help, we can make sure that they are here to stay in pristine condition.*

Yacht Mooring System

Always maneuver slowly in the vicinity of mooring buoys. Approach the buoy against the wind and the current if possible. Do not attach the painter to a cleat on your boat. Instead, pull one of your own dock lines through the eye of the painter and secure both ends on deck. By allowing enough slack, the scope of the mooring and the resiliency of the system will be increased. The mooring systems are well maintained by NASPA. Make sure your buoy is holding the vessel as intended, and that the system is secure. Proper use will ensure the continued security of the system.

How to Use NASPA Moorings: Never tie painter directly to your vessel.

NASPA Moorings are Found along the West Coast of Nevis

• All Nevis ports are ISPS Code compliant.

For Your Safety

Protect yourself against petty theft by:

- **Locking up** your boat when you leave, especially at night. If possible, leave someone onboard while moored.
- **Securing your** outboard engine to the boat at night.
- **Securing your** dinghy to the pier or your boat. (Use a kedge anchor when leaving it at the pier.)
- **Informing a** neighboring vessel of your absence when off for long periods.
- **Reporting any** suspicious activity directly to the local port authority or police.
- **Being cautious** about inviting strangers onboard your vessel. When going to the beach, refrain from taking jewelry or cash with you.

Conditions of Mooring Use and Regulations

1. All vessels must comply with the Immigration, Nevis Air and Sea Ports Authority (NASPA), and Customs laws of St. Kitts and Nevis.
2. All vessels approaching Nevis are required to contact the Nevis Air and Sea Ports Authority (NASPA) on VHF Channel 16 in order to be assigned a mooring within the first 24 hours upon arrival.
3. Vessels qualifying for mooring use must proceed to specifically-designated mooring after clearance.
4. Coastal mooring permits must be obtained prior to proceeding coastwise.
5. No vessel may use the moorings at any time unless authorized by the NASPA.
6. No anchoring of any vessel is permitted without the authorization of NASPA.
7. The discharging of any bilge or sewage or the dumping of any form of litter or pollutant into the water is strictly prohibited.
8. All moorings may be used for short or long-term use.
9. Spear fishing is strictly prohibited. Harvesting of immature conch or lobster or any endangered marine species is strictly prohibited.
10. No flora, fauna or artefact may be damaged or removed during mooring, snorkeling or any other activity.
11. Water skiing may not originate from any moored vessel without permission from NASPA.
12. 'Jet-skis' or other water sports vehicles must be registered with NASPA before use.
